

Education Seminar # 6: Lesson Planning and Article Publication- Session 5

Speaker: Dr. John Breiner, Associate Professor of Chemistry, University of Cincinnati, University of Cincinnati

Date: July 22, 2010

Time: 9:00 AM-12:00 Noon

Venue: Swift Hall 516

Prepared by:

Ms. Stephanie Baldwin, Little Miami Junior High School, Morrow, OH
Mr. Deon Edwards, Western Hills Engineering High School, Cincinnati, OH

This seminar was given by Dr. Jonathan Breiner. Dr. Breiner is an Associate Professor of Chemistry and Teacher Education, Department of Chemistry (College of Arts & Sciences) and Division of Teacher Education in CECH at University of Cincinnati. After receiving his Ph.D. in 1996, Dr. Breiner spent 7 years teaching predominantly at-risk students. In 2003 he received a joint appointment with the College Arts and Sciences and CECH with the primary duty of improving science education for pre-service and in-service teachers. Dr. Breiner has extensive experience creating workshops and courses centered at achieving this primary duty. He has created forensic chemistry workshops based on academic content standards for in-service teacher professional development and most recently created a two-quarter chemistry sequence geared specifically for pre-service teachers. Additionally for the past six years, he has developed workshops and programs for inner-city middle school students as part of the GEAR-UP initiative.

Dr. Breiner previously introduced how to get started when writing journal articles and provided examples of journals for submission. This was a continuation of the previous seminar. Dr. Breiner gave the teachers this session as time for writing their journal articles. He was available to read drafts and provide feedback. Below are pictures of taken during the two seminars.
